Sustainability

Fag Artigrafiche has a strong **corporate awareness** of resource conservation and **develops** paper **solutions** based on **ecodesign** principles, using recycled raw materials and minimising the use of virgin raw materials.

All stages of the product life cycle are checked in order to **reduce** not only the **use of raw materials** and **waste** at the design stage, but above all its **environmental impact** during disposal and recycling. Thanks to the **innovative technologies** employed and the **responsible sourcing** of paper from FSC®-certified supply chains, it contributes to safeguarding and protecting the earth's ecosystem.

Our corporate sustainability journey includes a **plan for continuous improvement** along a path of ecological and socially equitable transition

Collezione 2024
